7. Other

October 10, 2018

Kane County School District

Attn: Superintendent Ben Dalton/ OTHER?

To Whom it May Concern:

The Kanab Elementary School Community Council Members take a moment to thank Kane County School District for the time spent researching, applying for, and implementing the Free Breakfast program for all students of Kane County School District. As concerned parents of our own children and the students of Kanab Elementary School, we feel this program will succeed in giving all students a chance to better perform academically at school. We look forward to hearing the results of student performance that could be directly related to this program and we hope this program will continue in future years. If we can be of further advocacy for the program, we wish you to keep us apprised, that we may assist in keeping this opportunity available for the students of Kane County School District.

Sincerely, KES Community Council, 2018
